5. AUTHORS GUIDELINES

To avoid delays of your manuscript submission and review please carefully read the recommendations below.

5.1 BASIC MANUSCRIPT AND ETHICAL CONDITIONS

All authors manuscripts shall meet the following conditions:

- the manuscript is author(s) own original work, and does not duplicate any other previously published work, including author(s) own previously published work;
- the manuscript is not currently under consideration or peer review or accepted for publication or in press or published elsewhere;
- the manuscript contains nothing that is abusive, defamatory, libellous, obscene, fraudulent, or illegal; for all manuscripts non-discriminatory language is mandatory. Sexist or racist terms must not be used.

5.2 GENERAL INFORMATION

5.2.1 FORMAT

Articles should be provided in Microsoft Word files (.doc or .docx).

5.2.2 FORMATTING

Please use the template **template_KDMT 2021.doc**. This template explains and demonstrates how to prepare papers. The best is to read these instructions and follow the outline of this text.

5.2.3 PAPER LENGTH

Papers should be between **5 and 6 pages** in length. This includes all text with figures and tables including references. Please note that manuscripts over 6 pages will be considered only at the discretion of the Editorial Board.

5.2.4 PAPER LANGUAGE

All text, figures and tables must be in **Slovak, Czech** or in **English**.

5.2.5 TABLES

Tables should be typed and included in main manuscript file. All tables are to be numbered using Arabic numerals. Tables (refer in text with: Table 1, Table 2...) should be presented as part of the text, but in such a way as to avoid confusion with the text. A descriptive title should be placed above each table.

5.2.6 FIGURES

Figures (charts, diagrams, line drawings, web pages/screenshots, and photographic images) should be submitted in main document after references. Figures should be of high quality, legible and numbered consecutively with Arabic numerals. Figures (refer in text with: Fig. 1, Fig. 2...) also should be presented as part of the text, leaving enough space so that the caption will not be confused with the text. The caption should be self-contained and placed below the figure. Generally, only original drawings or photographic reproductions are acceptable. Only very good photocopies are acceptable. Utmost care must be taken to insert the figures in correct alignment with the text. If possible, please include your figures as graphic images in the electronic version. For best quality the pictures should have a resolution of 300 dpi.

5.2.7 EQUATIONS

Equations refer in text with: Eq. 1, Eq. 2... There should be one line of space above the equation and one line of space below it before the text continues. The equations have to be numbered sequentially with Arabic numerals, and the number put in parentheses at the right-hand edge of the text.

5.2.8 UNITS AND TRADE MARKS

Authors must adhere to SI units. Units are not italicised. When using a word which is or is asserted to be a proprietary term or trade mark, authors must use the symbol ® or TM.

5.2.9 PAPER STRUCTURE

Manuscripts should be compiled in the following order:

- i) **Basic manuscript information** – includes Manuscript Title, Author(s) names, Author(s) affiliations, Correspondence Author, Abstract and Keywords.
- ii) **Main text** – includes text with table(s) and figure(s) in listed format:
 - Introduction - state the objectives of the work and provide an adequate background (literature review),
 - Material and Methods - provide sufficient detail to allow the work to be reproduced, methods already published should be indicated by a reference: only relevant modifications should be described,
 - Results and Discussion - results should be clear and concise, discussion should explore the significance of the results of the work, not repeat them.
 - Conclusion - clearly summarizes the main results of the paper.

5.3 MANUSCRIPT CONTENT REQUIREMENTS

5.3.1 ESSENTIAL TITLE PAGE INFORMATION

Title: Concise and informative. Titles are often used in information-retrieval systems. Avoid abbreviations and formulae where possible.

Author names and affiliations: First, (middle) and last name. Where the family name may be ambiguous (e.g., a double name), please indicate this clearly. Present the authors' affiliation

addresses (where the actual work was done). Provide the full postal address of all author's affiliation, including the country name and the e-mail address. All persons who have a reasonable claim to authorship must be named in the manuscript as co-authors; the corresponding author must be authorized by all co-authors to act as an agent on their behalf in all matters pertaining to publication of the manuscript, and the order of names should be agreed by all authors.

Corresponding author: Clearly indicate who will handle correspondence at all stages of refereeing and publication, also post-publication. Ensure that correct e-mail address is provided in addition to the complete postal address. Contact details must be kept up to date by the corresponding author.

5.3.2 ABSTRACT

A concise and factual abstract is required, 20 – 200 words. The abstract should state briefly the purpose of the research, the principal results and major conclusions. References should be avoided. Also, non-standard or uncommon abbreviations should be avoided, but if essential they must be defined at their first mention in the abstract itself. It is recommended to provide briefly information about article purpose, methodology, findings, originality and research or practical implications.

5.3.3 KEYWORDS

Before the abstract, provide a minimum of 4 keywords and maximum of 6 keywords, using British English spelling and avoiding general and plural terms and multiple concepts. Be sparing with abbreviations: only abbreviations firmly established in the field may be eligible. These keywords will be used for indexing purposes.

5.3.4 HEADINGS

Headings must be concise, with a clear indication of the distinction between the hierarchy of headings. The preferred format is for first level headings to be presented in bold format with capital letters, for second level headings to be presented in bold format without capital letters and subsequent subheadings to be presented in bold-italics without capital letters. Section headings should be numbered sequentially, using a decimal system for subsections. Please use the decimal system of headings with no more than three levels.

5.3.5 ACKNOWLEDGEMENTS

Collate acknowledgements after main text. The names of funding organizations should be written in full. List funding sources in this standard way to facilitate compliance to funder's requirements. Funding: This work was supported by the National Research Agency of Slovakia VEGA 1/2345/67 and Slovak Research and Development Agency APVV-12-3456.

5.3.6 REFERENCES

Low percentage (**max. 20%**) of self-citations is accepted. References are cited in the text just by square brackets [1]. Two or more references may be put in one set of brackets [2,3] or [2-

4]. The references are to be numbered in the order in which they are cited in the text and are to be listed at the end of the contribution in section REFERENCES with only English titles.

Reference to a **journal paper** (Surname, Initials, Title of article (original in language if is other than English), Journal Name, year, volume, pages.):
